CONTENTS

Number 1

A. Muir, B. Anderson, *and* I. Stephen. Characteristics of Some Tanganyika Soils 1

D. A. Osmond *and* I. Stephen. The Micropedology of Some Red Soils from Cyprus 19

E. C. Childs, N. Collis-George, *and* J. W. Holmes. Permeability Measurements in the Field as an Assessment of Anisotropy and Structure Development 27

E. C. Childs. The Anisotropic Hydraulic Conductivity of Soil. . . . 42

C. A. Parker. Non-Symbiotic Nitrogen-Fixing Bacteria in Soil. III. Total Nitrogen Changes in a Field Soil 48

E. A. Calder. Features of Nitrate Accumulation in Uganda Soil . . 60

J. Mitchell. Review of Tracer Studies in Saskatchewan on the Utilization of Phosphates by Grain Crops 73

O. Talibudeen. Isotopically Exchangeable Phosphorus in Soils. Part II. Factors Influencing the Estimation of 'Labile' Phosphorus . . . 86

P. M. McDonnell *and* T. Walsh. The Phosphate Status of Irish Soils with Particular Reference to Farming Systems 97

J. P. Leaver *and* E. W. Russell. The Reaction between Phosphate and Phosphate-Fixing Soils 113

S. McConaghy *and* D. M. McAleese. Studies on the Basaltic Soils of Northern Ireland. I. Cation-Exchange Properties. 127

D. M. McAleese *and* S. McConaghy. Studies on the Basaltic Soils of Northern Ireland. II. Contributions from the Sand, Silt and Clay Separates to Cation-Exchange Properties 135

J. D. Ovington *and* H. A. L. Madgwick. Afforestation and Soil Reaction . 141

T. W. Wright. Abnormalities in Nutrient Uptake by Corsican Pine Growing on Sand Dunes 150

R. M. S. Perrin. A Simple Monolith Container 158

J. B. Dalrymple. Preparation of Thin Sections of Soils 161

Number 2

C. F. Hemming *and* C. G. Trapnell. A Reconnaissance Classification of the Soils of the South Turkana Desert 167

W. A. Mitchell *and* A. Irmak. Turkish Forest Soils 184

G. A. Worrall. Features of Some Semi-arid Soils in the District of Khartoum, Sudan. I. The High-level Dark Clays 193

G. A. Worrall. Features of Some Semi-arid Soils in the District of Khartoum, Sudan. II. The Red Sand–Ironstone Group and the Riverain Group 203

T. A. Jones. Nitrogen Studies on the Irrigated Soils of the Sudan Gezira . 211

J. Smith. A Mineralogical Study of Weathering and Soil Formation from Olivine Basalt in Northern Ireland 225

CONTENTS. *Number* 2 (*continued*)

JANE MEIKLEJOHN. Numbers of Bacteria and Actinomycetes in a Kenya Soil. 240

R. SCOTT RUSSELL, E. W. RUSSELL, *and* P. G. MARAIS. Factors Affecting the Ability of Plants to Absorb Phosphate from Soils. I. The Relationship between Labile Phosphate and Absorption 248

A. E. MARTIN *and* R. REEVE. Chemical Studies on Podzolic Illuvial Horizons. I. The Extraction of Organic Matter by Organic Chelating Agents . . 268

A. E. MARTIN *and* R. REEVE. Chemical Studies on Podzolic Illuvial Horizons. II. The Use of Acetylacetone as Extractant of Translocated Organic Matter 279

SIGNE G. HEINTZE. Studies on Soil Manganese 287

D. H. SAUNDER, B. S. ELLIS, *and* A. HALL. Estimation of Available Nitrogen for Advisory Purposes in Southern Rhodesia 301

L. H. P. JONES. The Solubility of Molybdenum in Simplified Systems and Aqueous Soil Suspensions 313
